## Mohawk Trails Elementary

### ***EW, What's That?***

*Alison Barber, Assistant Site Supervisor*

On Thursday afternoons, our students have the opportunity to get their hands ooey and gooey in our slime club activities. This is one of our most popular clubs! The students get to make various types of slime, as well as foam, flubber, Goblin Goop, and playdough. Their fingers are sticky and messy, but their smiles are big and bright!

Students who frequently attend this club had this to say: Samantha (kindergarten) said, "it's fun because it's slimy, and I like to with it." Abby (4th grade) remembers trying to make flubber, but "it was more difficult than regular slime. It was supposed to feel like rubber." This activity sure does make a mess, but the kids love it!

### **Fire Safety Awareness and Thank You Cards for Our Heroes**

*Alison Barber, Assistant Site Supervisor*

This past month, we were honored to welcome our very own Firefighter, Mr. McNab. His daughter attends our program at Mohawk Trails. He came to talk to our students about fire safety and awareness. The kids loved seeing all the gear he brought, and Luke (5th grade) got to try on the fireman suit. Students also learned new things from Mr. McNab. Sawyer (3rd grade) learned that a light on the oxygen tank turns red if the level is low, and also that firefighters wear a motion detector.

Our students made cards of appreciation for the firefighters of the Carmel Fire Department to wrap up the community service aspect of our Awareness project this semester. Their words of kindness will hopefully bring joy to the superheroes of Carmel.

**Fall Break is coming up! Register for School's Out Camp on October 13 and 16.**
