Towne Meadow Elementary  
Extended School Enrichment

October 2017

## Cake Pop Club!

One of our most popular clubs has been our cake pop club. Cake pops are crumbled cake mixed with frosting and then shaped into bite-size balls. These are then dipped in melted candy and decorated. Cake pops are served on a stick, just like a lollipop! In order for everyone to get the chance to participate in this fun club, students may only come every other week.

## Morning Fun at ESE!

Towne Meadow students love the different clubs we offer in the morning, but one club in particular stands out above the rest: Jenga Knockdown. Our students especially love playing Jenga Dominos during this club. In this game, the students work together to first set up the jenga pieces like dominos. After they have arranged the jenga pieces to their liking, they will then create a chain reaction to knock all of the pieces down. One morning, almost 15 children were working together to create the longest chain reaction!

## Staying Healthy

At Towne Meadow ESE, we want to stay clean and healthy! We will be sharing signs with our TME students and staff to help remember to wash our hands and wash them correctly!
