

### **Kid (Counseling) Around!**

*Christian Amaro, Assistant Site Supervisor*

Starting in upcoming weeks is a relatively new club for Woodbrook, Junior Kid Counselors! Here at Woodbrook we have a significant amount of responsible students who wish to help out staff members and become a part of the program. Mrs. Pittman and myself are going to put together a club in which our students will go through an interview process and various trainings to help strengthen their interpersonal skills and familiarize them with a different perspective of ESE. We have several students who requested this club so that they can help out and apply their skills to good use! We look forward to building this program and continuing it!

### **Stack The Deck!**

*Daniel Keim, Head Counselor*

At this morning club, students have the opportunity to learn and play a variety of card games such as Old Maid, Egyptian Rat Slap, Go Fish, War, Crazy Eights, and Rummy. Kids have loads of fun as they play against each other competitively (every now and then a little too competitively!). All and all, this is a very laid-back and enjoyable club for the kiddos! Playing cards is a great way to start every Wednesday morning!
