Monday

Lego Bricks 4 Kidz (Grades K-2)
Using gears, motors, axles, and technic bricks, we learn about a new subject each class, then we create a *moving* model of it out of LEGO® bricks! Each class uses unique model plans that aren't found in stores, with exciting themes such as transportation, space, construction, amusement parks, and more. Various levels of difficulty for beginning builders up to experts! We learn, we build, we play...with LEGO® bricks.

Tuesday

Codexplorers
The Codexplorers course brings technology skills to life! By learning to program, students will build their own computer games in a safe, collaborative and high-energy environment. This course will develop introductory programming skills with Scratch, a curiosity for electronic invention with littleBits, and an understanding of internet safety with daily tips throughout the ten sessions. By the end of the course, students will have built their own simple, interactive game.

Thursday

Watch Me Sculpt
Watch Me Sculpt (WMS) provides an entertaining and educational experience for elementary age children using the art of sculpting in an after school setting. WMS develops self-confidence by providing students with an engaging activity that also teaches a useful skill while increasing fine-motor coordination. While enjoying the art of sculpting, instructors also introduce concepts covering a wide range of educational fields such as science, history, math, technology, geography, and engineering.
