

February 21 - March 30 (2:45p - 3:45p)

Tuesday

Karate

We have enlisted the help of the best that Indiana has to offer for our martial arts course. John Adamson is a 7-time USA karate team member who has studied and competed all over the world. For 31 years, his family has taught martial arts right here in Carmel focusing on personal development, respect, and an "I can do anything" attitude. Some former participants of this enrichment course have gone on to become black belts and even national karate champions. Your child will feel 10 feet tall after they experience this fun filled confidence building course.

Wednesday

Video Game Design (Grades 1-5)

Video games are everywhere and in almost every form you can imagine! In Electronic Game Design: Platform Games, engineers will create their own platform video game! Students will program characters and a 2D obstacle course in a side-scrolling, Mario-type world. Game characters will overcome enemies and reach an end goal on multiple levels. At the end of the class, everyone takes home a working Windows-compatible game (Clickteam Fusion 2.5® does not support Mac or Android operating systems). Be sure to bring a flash drive to take home your game!!

Thursday

Lego Bricks 4 Kidz

Using gears, motors, axles, and technic bricks, we learn about a new subject each class, then we create a *moving* model of it out of LEGO® bricks! Each class uses unique model plans that aren't found in stores, with exciting themes such as transportation, space, construction, amusement parks, and more. Various levels of difficulty for beginning builders up to experts! We learn, we build, we play...with LEGO® bricks.
