

February 21 - March 30 (2:45p - 3:45p)

**Monday**

**Kidz Art (grades 1-5)**

With KidzArt you learn much more than just how to draw. We build deeper life skills; self-confidence, problem-solving, and self expression. Through our interactive format, students learn how to use their own creativity to access the power of their imagination. Students are exposed to a variety of artistic styles, cultural interpretations, and artist grade mediums such as charcoal, oil pastel, watercolor, chalk pastel, Prismacolor markers and more. KidzArt's "no mistakes" philosophy encourages children to try new things, explore their creativity and overcome their inhibitions or obstacles in order to grow and learn. Brainstorming methods take place in every class to make this a creative-based drawing program. We incorporate soft music into our program which provides an atmosphere ripe for creativity. No art experience necessary, we can teach ANYONE to draw. If you can dream, you can draw!

**Tuesday**

**Tonight I Am Cooking Italian!**

Good eating habits are fundamental for our body to grow healthy; learning different cultures is important for opening our minds.

In these six classes, children will learn how easy and fun it is to prepare nutritious Italian dishes from scratch to enjoy for dinner that night. The food will need to be cooked at home and directions for cooking it will be provided.

**Wednesday**

**Watch Me Sculpt**

Watch Me Sculpt (WMS) provides an entertaining and educational experience for elementary age children using the art of sculpting in an after school setting. WMS develops self-confidence by providing students with an engaging activity that also teaches a useful skill while increasing fine-motor coordination. While enjoying the art of sculpting, instructors also introduce concepts covering a wide range of educational fields such as science, history, math, technology, geography, and engineering.

**Thursday**

**Video Game Design (Grades 1-5)**

Video games are everywhere and in almost every form you can imagine! In Electronic Game Design: Platform Games, engineers will create their own platform video game! Students will program characters and a 2D obstacle course in a side-scrolling, Mario-type world. Game characters will overcome enemies and reach an end goal on multiple levels. At the end of the class, everyone takes home a working Windows-compatible game (Clickteam Fusion 2.5® does not support Mac or Android operating systems). Be sure to bring a flash drive to take home your game!!
