Awareness Project	<p style="text-align: center;">Peer Reading</p> We will be divided into K-2 and 3-5 and discuss the importance of reading and how important it is to peer read. We will show the older students how to be helpful, encouraging when being a peer reader and the younger students will learn how to fun and helpful it can be to peer read. We will then partner older with younger readers and allow them time to read to one another, using the tips we went over earlier.	2/10/17@3:45
Student Reflection	We will talk about how it felt to peer read. We will ask questions of each group about their experience and hear their input about the exercise.	2/17/17@3:45
