

February 21 - March 30 (2:45p - 3:45p)

Monday

Ultimate Chess Club

We help students one-on-one, peer-to-peer, and introduce custom rules for an equal mix for group vs. group. The class ends each session with a custom game where they face off as a large group vs. the instructor(s). Parents will see a dramatic improvement per class, and kids are released much happier and excited about chess! The long term benefits are a bonus!

Tuesday

Intro to Painting

Join *Paint It! Kids* for a fun introduction to the world of paint! In our *Intro to Painting* class we will teach the basics of working with acrylic paint on canvas. Each week will provide step-by-step instruction as we guide each of our budding artists towards their own finished masterpiece. Not only will we learn different brush techniques to blend, shade and dry brush, but also how to mix all of our own colors using Red, Yellow, Blue and White! Start building your child's own gallery today as they bring home a new acrylic painting on canvas each week!

Wednesday

Karate

We have enlisted the help of the best that Indiana has to offer for our martial arts course. John Adamson is a 7-time USA karate team member who has studied and competed all over the world. For 31 years, his family has taught martial arts right here in Carmel focusing on personal development, respect, and an "I can do anything" attitude. Some former participants of this enrichment course have gone on to become black belts and even national karate champions. Your child will feel 10 feet tall after they experience this fun filled confidence building course.

Thursday

Watch Me Sculpt

Watch Me Sculpt (WMS) provides an entertaining and educational experience for elementary age children using the art of sculpting in an after school setting. WMS develops self-confidence by providing students with an engaging activity that also teaches a useful skill while increasing fine-motor coordination. While enjoying the art of sculpting, instructors also introduce concepts covering a wide range of educational fields such as science, history, math, technology, geography, and engineering.
