College Wood Elementary

It is Not Goodbye, It is see you later!

By James Dowell, Site Supervisor

This will be my last school year as the Site Supervisor for the College Wood ESE program. As many of you know I have been pursuing my Masters in Social Work for the past two years. I am at a point where I need to complete an internship next year and will be unable to do that while working here. It has been a pleasure to spend the last 7 years with you and your children. I love the stories they tell and the things they do. I will be doing my internship within the CCS system so I will see people around from time to time. I hope I get a chance to talk to each of you before the end of the school year.

Spring Cleaning—The CW ESE Way

By Audrey Cooper, Assistant Site Supervisor

Our 3rd-5th grade students had the opportunity to participate in our last community service project of the year. We partnered with West Clay's ESE program to clean up around our building and the ponds behind the schools. 22 students from College Wood participated and filled 12 grocery bags with trash and litter around our building. I hope our students learn to be mindful of where to put trash and how to take care of our school. The joint service project is a first between College Wood and West Clay, and we hope to continue working together to keep our schools clean.
