

Lights On Afterschool

By: Joey Castillo, PTE Site Supervisor

This year for our lights on afterschool celebration, we had a throwback Thursday glow in the dark dance party! The students danced the day away to hits from yesterday and today. The staff and students were encouraged to dress up for their favorite decade. We offered some glow in the dark games, and also a glow in the dark craft. The students had such a great time, and we look forward to planning the next celebration for the 2018 year!

Fusing the Day Away

By: Joey Castillo, PTE Site Supervisor

Near the middle of every ten weeks at ESE, we have the students vote on the upcoming clubs they would like to see for the next ten weeks. This year, with a landslide vote, fuse beads has been voted back on the activity plans for this ten weeks. Fuse beads has always been a very popular club, and has students flocking to it every time we offer it. We are happy that we offer a club that allows the students to be creative, and use their imagination to create something spectacular.
