

### Lights On After School Celebration!

*Christian Amaro, Assistant Site Supervisor*

It is that time of year again when the weather cools off and pumpkins are ready for carving! This year at Woodbrook we celebrated Lights On After School with a big fall party! Lights On After School is a nationwide celebration that brings awareness of the importance of after school activities, whether sports clubs or after care programs. Pumpkins were available for painting with different colors and awesome designs! There were also snacks for students and parents! It is always great to see our students use their creativity during the pumpkin painting as well as catching up with the parents over a snack. This is one of my favorite times of year and a great time was had by all!

### Ballin' Bingo!

*Kerryn Quarles, Kid Counselor*

At this afternoon club, our students participate in Ballin' Bingo. In this club, our students experience all different kinds of bingo games such as alphabet bingo, iSpy bingo, and even rhyming bingo. During iSpy bingo, our students work together as a team to find objects on the cards. These cards, similar to iSpy books, can be complex and challenging. Our students work together to achieve a BINGO on their card. Each bingo game played brings the students together, leading them to make new friends. Ballin' Bingo is one of, if not, the most popular club at Woodbrook, with growing attendance each week!
