# ESE Star

## Towne Meadow Elementary Extended School Enrichment

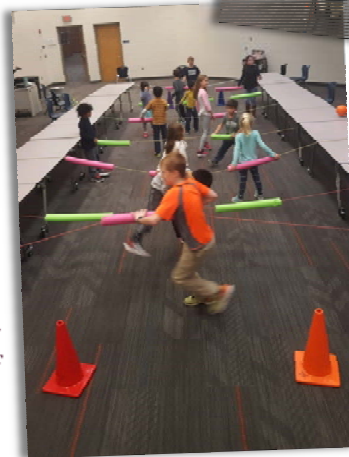

### December 2017

### Little Leaders!

TME ESE's Jr. Counselor program is growing bigger and gaining more responsibility. We get to help during homework time and clubs, work with our Kid Counselors, and give our ideas. I think the most popular is being able to help students who are younger than us. They really look up to us and help us practice patience. We are learning our RICHER principals by teaching others what they look like and how to be leaders.

Our Jr. Counselors will be meeting in December to help with Parents Night Out. They will also be talking about next semester's clubs and how they will get to help lead certain activities. We will also be working on team building and Awareness projects that we will present to the whole program on Fridays! These projects will help us work on helping others and showing others the importance of giving.

## PARENTS NIGHT OUT

### Friday, Dec. 15th

### 6-8pm

### Giant Games

Students become the game pieces when we play Giant Games at ESE! Throw dodgeball bombs onto ships during life-sized Battleship, walk through a chocolate river and visit Candycane Forest in Candyland, and get the ball across the goal in giant Foosball! These kiddos love going to Mr. Ellis's Giant Games! Not only has he re-created classic board games into giant, life-size fun, but he allows for creativity as the students get to be the game pieces and help make each game come to life!
