

Parent's Night Out!

Alyssa Holsten, Site Supervisor

Carmel Elementary's ESE program hosted our parent's night out on December 8th. Our children were very excited to join us for a fun-filled evening while their parents were out shopping, enjoying a nice dinner, or relaxing at home!

The children enjoyed some pizza and drinks to start off the evening! After we finished with dinner, the children started watching the Polar Express. During the movie each child received a cup of hot cocoa & a cookie!

The children loved being able to have extra time to hang out with their friends. We are all very excited to plan our next parent's night out!

Rainbow Looms!

Alyssa Holsten, Site Supervisor

One of our most voted clubs for this ten weeks was rainbow looms! If you don't know what rainbow looms are, I'm sure your child could tell you all about them. With all the different color rubber bands, the children are able to weave these together to make necklaces, bracelets, and rings.

The children at Carmel ESE enjoy making these and then giving them out to their friends! This club is so popular when the children get called to go home, they ask their parents if they can stay a bit longer!

We have also added this club to our AM program starting on January 9th!
