ESE's SnackArt

SnackArt at ESE is one of our most popular clubs! The students love to create artwork with food and learn some skills in the kitchen.

This semester during SnackArt, a few snacks we made were: Penguin Bananas, Fruity Pebble Krispies, and Button Cookies. We also made heart-shaped cinnamon rolls for Valentine's Day and Boat-Float Jello cups for spring.

We read the food labels and directions on the back of boxes to prompt discussion. Though the counselors use the oven and knives, we go over how to use them safely and show the kids what we are doing for each step, having them help for everything they can.

Our Jr. Counselors help us pass out materials and ingredients. They also help the younger students with their projects and ensure they are all included in the activity. Thank you for making SnackArt such a success!

Your Voice, Your Choice!

We always allow our students to let us know what clubs they want to have at ESE. Sometimes we split into groups and give our opinion to the counselors. Sometimes we get together as a grade and talk about what clubs we want to see come back to ESE. This time, we got to vote!!

They were given options for next site plan, asked what their favorite clubs from this past site plan were, and allowed the staff to know which clubs they wanted to come back to ESE. The students enjoyed voting with clickers as they watched a power point and chose the answer they each wanted. This was very fun and they learned the basics of a voting system, each one voting for their choice anonymously.

Our students enjoyed seeing their choices being shown on the screen and it was good for them to see that their voice is being heard when we ask them questions and get their opinions. Thank you to all of our students who participated and to all of those who come to us with their ideas! We are listening!!

Which club would you go to out of these options?

- A. Drawing
- B. Spring Crafts

What is your favorite club?

- A. NatGeo
- B. Shark Tank
- C. Snack Art
- D. Showdown
- E. Mad Scientists
