

Comics With Keim!

Daniel Keim, Head Counselor

Three girls pose for a picture with their nearly-completed comics project! These girls worked collaboratively this whole site plan to make a unique story complete with their own original art. We're so proud of their work and creativity! They are just a sample of the awesome storytelling students have been able to produce at Comics with Keim! Each week we have a different focus, whether it be dialogue, character creation, cover art, or paneling. We also get inspired with our comics spotlight: a segment focused on highlighting some famous Marvel, DC, and other comics that the kids can draw ideas from. Many of the kids have created totally original content, whether it be superhero-themed or not. All ages and skill levels have participated and it's been a ton of fun! This club has promoted reading, artistic skill, group collaboration, and long and short-term planning.

Gotta Catch Them All!

Christian Amaro, Assistant Site Supervisor

Every Thursday afternoon there is a rambunctious group of Woodbrookers that are pumped for the gym! The game that everyone is excited for is Ultimate Frisbee. In the early weeks of Ultimate Frisbee, the students learned the basic rules of the game and how to play. Since throwing a Frisbee can be difficult for some students, everyone learned the game handball. Handball has similar rules and it is easier for a student to catch and throw a ball rather than a Frisbee. As the afternoon goes by and students feel more confident the Frisbee is added into the mix. It has been awesome to see the students progress week by week and continuing to strength their skills. Rules are added and modified to ensure that everyone can play to the best of their ability. Adding jerseys to the mix has made everything a real and sometimes Mr. Amaro uses his announcing voice to add a fun play by play! It is great to see this activity flourish each year, and hopefully with some nice weather we will be able to take this outside for a last few games!
